Ansell

Performance Profile

- Ansell's ZONZ™ Technology provides a comfort experience for the wearer with an innovative ergonomic design that reduces hand fatigue and enhances hand movement for a better day at work.
- The improved coating offers improved grip in dry and slightly oily environments along with an extended durability compared to its previous formulation.

Key Features

- Our legendary first-to-market foam coating provides more breathability that extends workers' comfort. The foam nitrile coating promotes better grip allowing the worker to perform tactile tasks with ease.
- Tailored fit at the base of the pinky finger better matches natural hand contours.
- Benefits from proprietary washing process that efficiently extracts impurities to deliver a cleaner, more comfortable glove. Independently certified as skin-friendly by the Oeko-Tex® testing & certification system.
- No transfer of silicone contaminants to metal parts prior to painting
